Fundamental Friendships:

The Benefits of Diverse Friendship Groups for Children

Tuesday, January 24th at 1 PM

Click **HERE** to register today

Children as young as 6 months old begin to notice differences in skin color. As early as two they begin to prefer playmates of similar race and gender and as early as three, they are forming judgments about people based on racial differences. Join us on January 24th @ 1:00pm as we speak with experts about how to encourage cross group friendships among children and how the benefits of developing diverse friendships creates resilient youth when faced with stereotypes and racism.
