About the Artist

The Schwartz-Jacobs Gallery is dedicated in honor of Dean William Schwartz

Meet the artist and enjoy a walk through our second floor gallery space at the Miami Beach JCC.

Jonathan Aizenstat, a self-taught professional artist with special needs showcases a series of bright watercolor and color pencil drawings that strives to transform a person's emotions, and perceptions, taking them on a personal journey of the imagination.

He is the creator of Don Yoni, a children's book series he developed after working for 10 years with children. Jonathan's imaginative works demonstrate that someone with disabilities or special needs can be as strong and talented as everyone else.
